

## Volunteer Opportunity

Thanks to God's Pantry, Blue Grass Farms Charities has been given the opportunity to deliver fresh produce and breads to area horse farm workers throughout Fayette and surrounding counties. Also, thanks to Jack Kain Ford, a transit van is available for the charity to use to make the deliveries.

Now we need manpower!!! If you are available for a day's work of goodwill, and a little bit of sweat, Blue Grass Farms Charities guarantees you will feel blessed by the gratitude and appreciation by the area farm workers when they receive the fruits and vegetables. Many of these men and women are on a fixed income and feed more than just themselves – lots of family members to support! So, to support these families a little bit of help is always needed and Blue Grass Farms Charities is there for them.

If you are available to spare some time and have a valid KY driver's license, please let BGFC know. We are looking for someone in the Woodford County area who would be interested in being added to our volunteer list for produce distribution/deliveries to the farms. Deliveries will be once a week to the area farms. A list will be provided each week as to what farms are requesting produce.

One of the perks is that you will see these gorgeous farms along with helping hardworking people who make it beautiful.

Please fill out the volunteer application, scan and email it back to [info@bgfc.org](mailto:info@bgfc.org)
